

CODINGJUNCTION
CYBER SECURITY SOLUTIONS

Cyber Security Services for Enterprises

Comprehensive Protection for Your Digital Assets.
Presented by Coding Junction.

CODINGJUNCTION
CYBER SECURITY SOLUTIONS

Introduction to Cyber Security

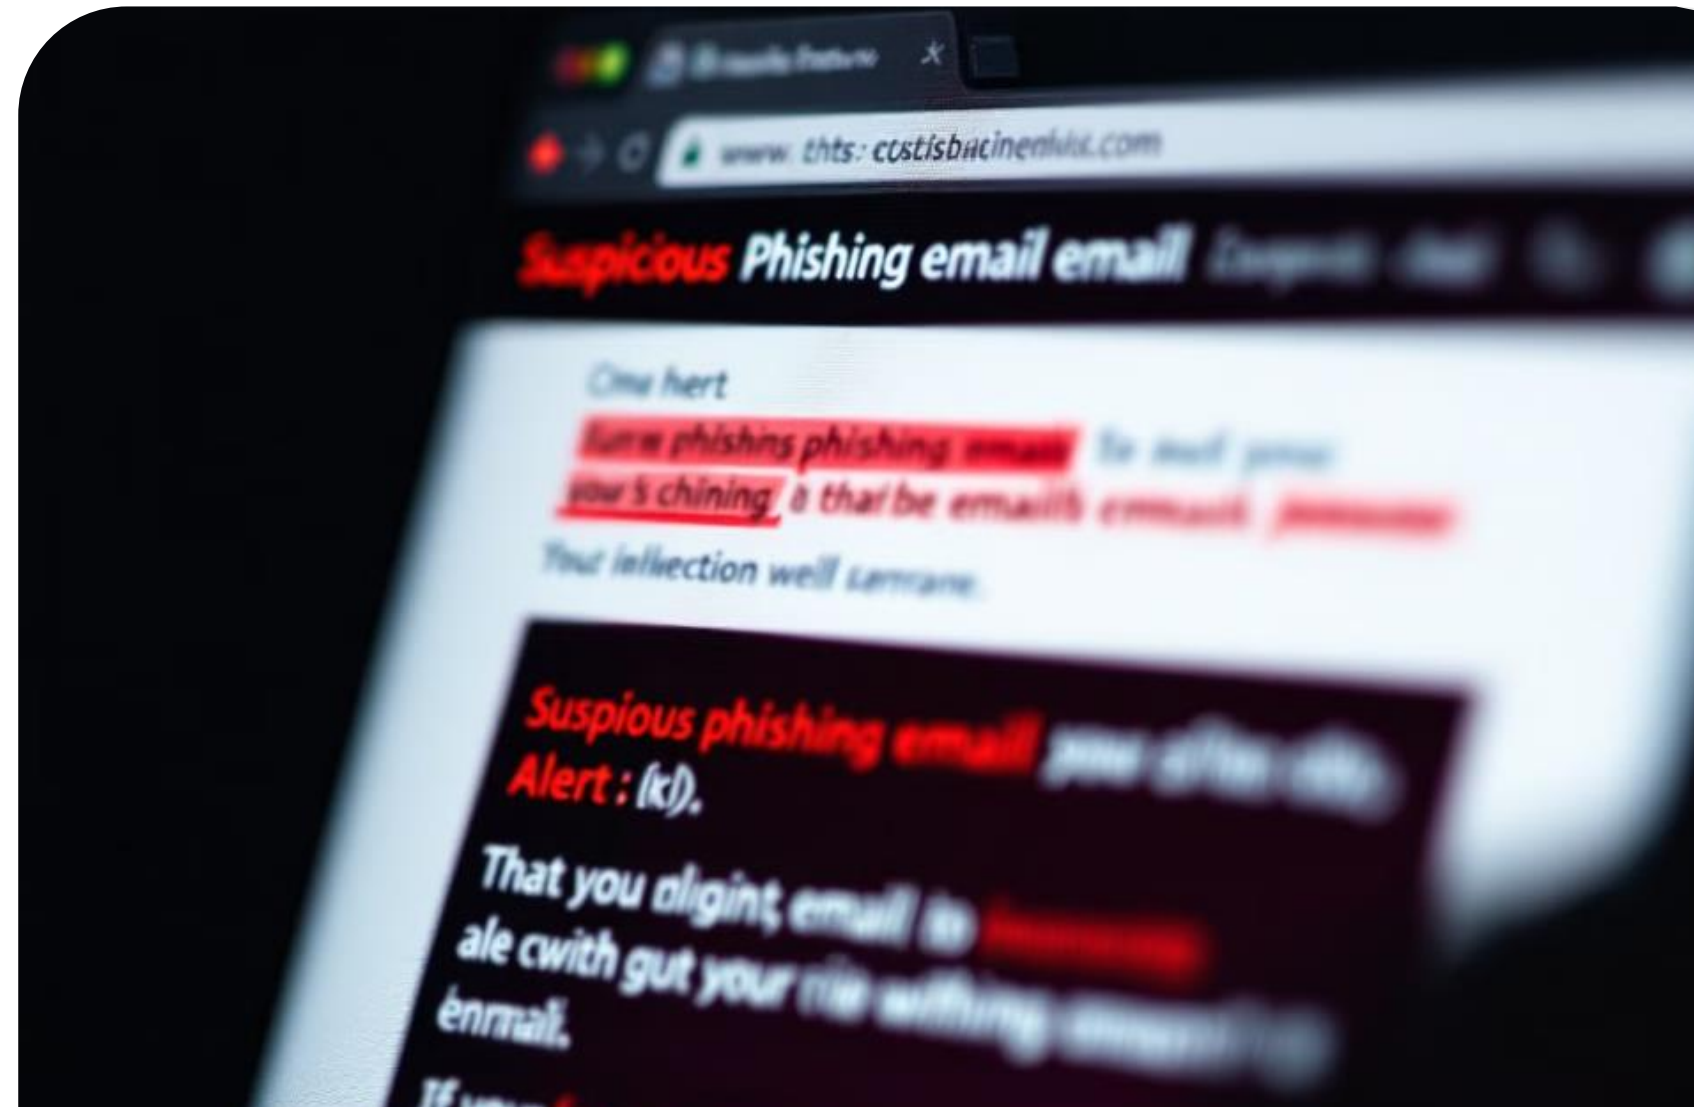

Cyber security defends systems and data from digital attacks. It is essential in today's interconnected world. Protect against growing threats.

Threat Landscape Overview

- Malware, Phishing,
- Ransomware,
- DDoS **attacks** Real-world examples of breaches Consequences of weak security

Cyber Security Services Offered

We provide comprehensive cyber security services for your business. Our services include network, endpoint, application, cloud, and data security.

We also handle IAM, SIEM, VAPT, DLP, and incident response.

✓ Network Security	✓ Endpoint Security
✓ Application Security	✓ Cloud Security
✓ Identity & Access Management (IAM)	✓ Vulnerability Assessment & Penetration Testing (VAPT)
✓ Data Loss Prevention (DLP)	✓ Incident Response & Recovery
✓ Security Consulting & Compliance	

Network Security

Network security includes firewalls and intrusion detection/prevention systems. We offer secure VPNs and network segmentation. Protect your network.

- ☐ Firewalls
- ☐ IDS/IPS
- ☐ Secure VPNs
- ☐ Network Segmentation
- ☐ Server Hardening

Endpoint Security

Endpoint security includes antivirus and **anti-malware solutions**. Implement device control and encryption. Mobile Device Management (MDM) solutions available.

Protect every device connected to your network.

Application Security

Application security focuses on secure coding practices. Use a **Web Application Firewall** (WAF) to protect applications. Regular app vulnerability scanning is essential.

- ☐ **Secure Coding Practices**
- ☐ **Web Application Firewall (WAF)**
- ☐ **Vulnerability Scanning**

Cloud Security

Cloud security offers cloud workload protection. We offer secure cloud configuration. Cloud access security broker (CASB) solutions help protect cloud data.

- ☐ Cloud workload protection
- ☐ Secure cloud configuration
- ☐ Linux Services Provide and Ansible Automation

Identity & Access Management (IAM)

1

Multi-Factor Authentication (MFA)

Add layers of security. Use codes from an app or device.

2

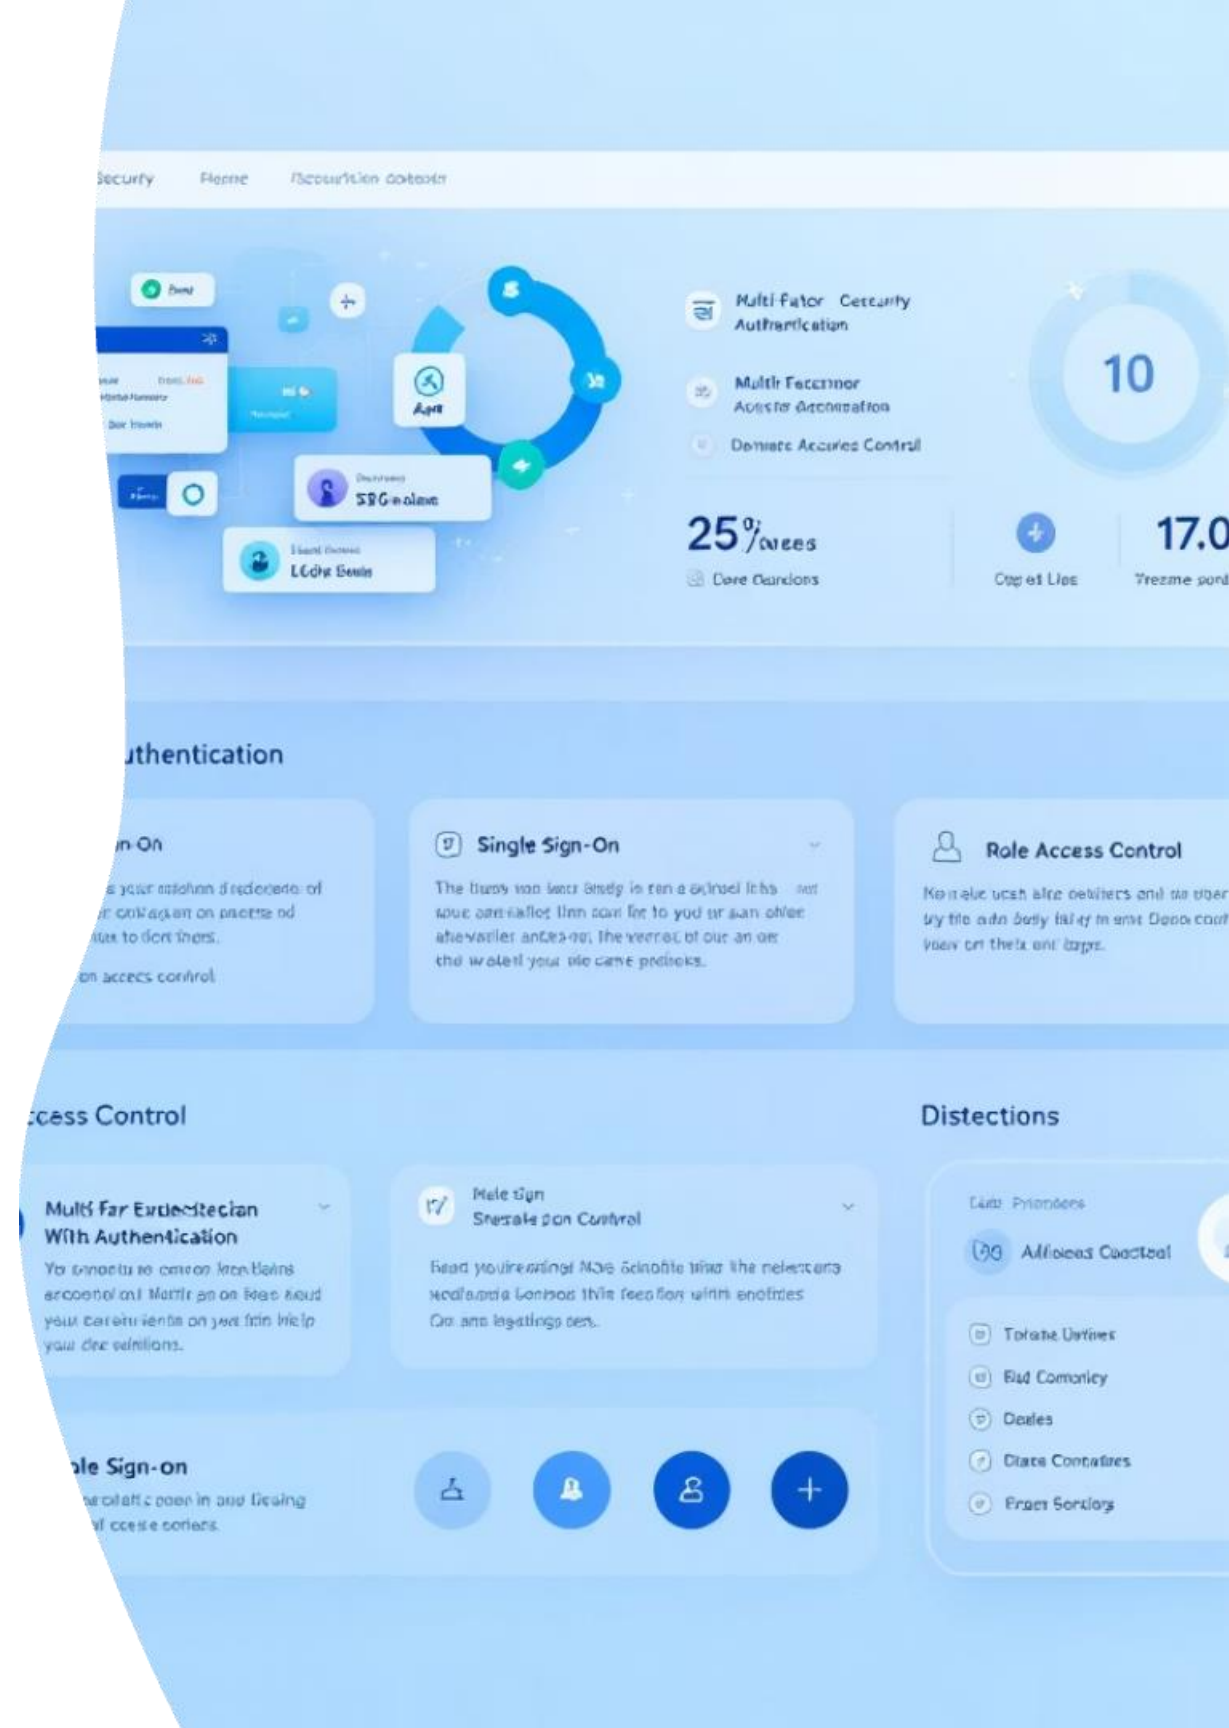

Single Sign-On (SSO)

Enable users to access multiple apps with one login.

3

Role-Based Access Control

Limit access based on job responsibilities. Only provide needed access.

CODINGJUNCTION
CYBER SECURITY SOLUTIONS

Security Information & Event Management (SIEM)

1

Real-Time Monitoring

Continuously analyze events for immediate threat detection.

2

Log Analysis

Comprehensive log data analysis to identify security incidents.

3

Threat Intelligence Integration

Integrate external intelligence to enhance threat detection.

Vulnerability Assessment & Penetration Testing (VAPT)

1 Proactive Weak Point Detection

Identify vulnerabilities before attackers can exploit them.

2 Manual and Automated Testing

Comprehensive approach using both methods.

CODINGJUNCTION
CYBER SECURITY SOLUTIONS

Data Loss Prevention (DLP)

- 1 Sensitive data tracking**
Sensitive data must be tracked to prevent leaks.
- 2 Policy-Based Controls**
Implement policy-based controls for data sharing.

Incident Response & Recovery

1 Cyber Incident Handling

Rapidly respond to breaches. Minimize damage through a structured plan.

2 Disaster Recovery Planning

Restore data and systems after a disruption. Maintain business continuity.

3 Backup Strategies

Regular data backups protect data. Critical for quick recovery.

Security Consulting & Compliance

1 Risk Assessments

Identify and evaluate security risks within the organization. Helps create custom security strategies.

2 Expert Guidance

Expert consultants provide guidance. Helps implement effective security programs.

Why Choose Us?

Proven Experience

Years of experience in cybersecurity. Protecting businesses of all sizes.

Advanced Tools

We utilize cutting-edge tools. Provides superior security solutions.

Certified Professionals

Certified experts in the latest security standards. We stay ahead of threats.

Tailored Strategies

Customized security strategies that fit your needs. Protect your unique environment.

Thank You

We appreciate your time and consideration. Contact us to start a cybersecurity journey.
